Setting Up Your Project

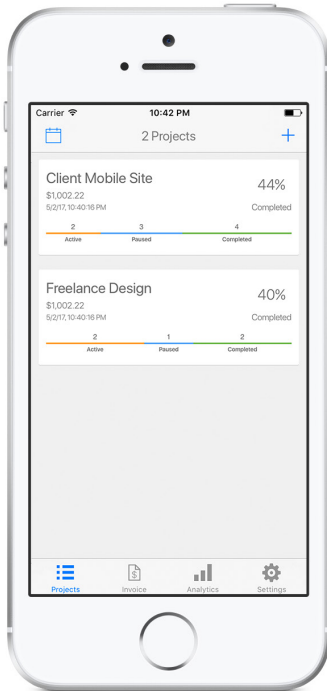

**Open
Calendar** >

**Project
Overview** >

**Status
Timeline** >

The timeline shows the status of every task in your project. Don't stop until all your tasks have turned green!

< **Add A New
Project**

Swipe to remove a project,
or tap to edit project settings or view its tasks

Creating Tasks

Set Hourly Rate For Project

The hourly rate isn't required to get started.

Once an hourly rate is added - all your calculated billable hours are updated automatically.

Tap To Add Task

Reminders

Enable active task notifications to be reminded when you've left a task running.

These simple notifications are designed to help keep you on track & remind you to "come up for air"

If you find yourself spending too much time on your tasks, or leaving a task running, this feature is for you!

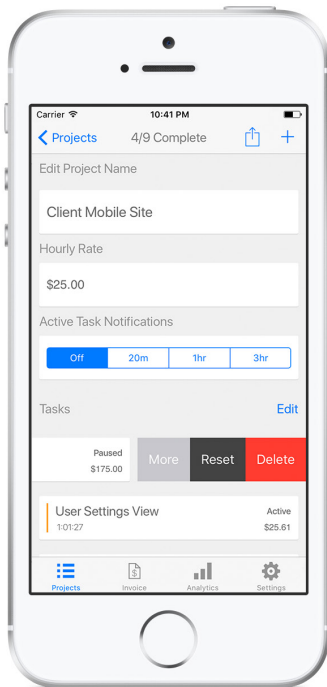

Keep tasks simple, with just **one** discrete item to complete. Doing this will enable you to analyze how long each task takes. This measurable progress is useful for client management & invoicing.

Managing Tasks

Task Browser

Each task shows the color representing it's status & current billable hours

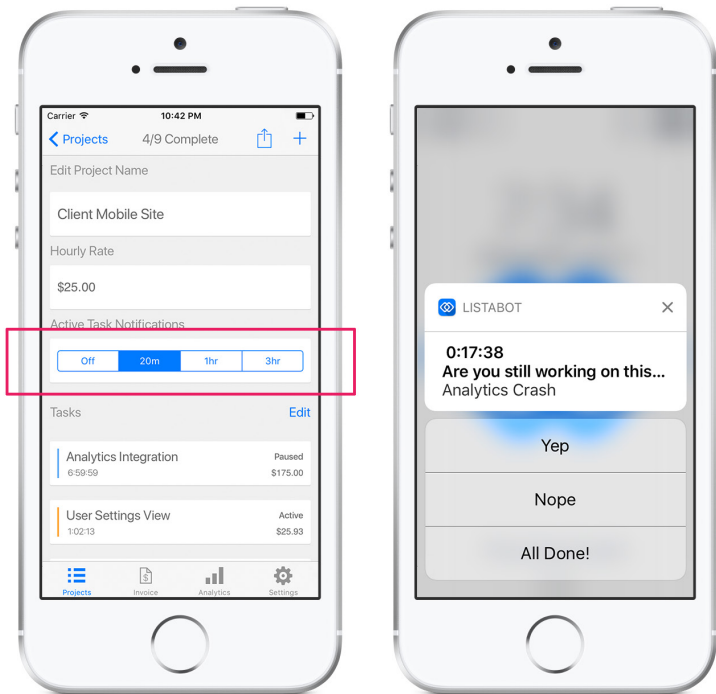

- Unstarted
- Active(Billable)
- Paused
- Completed

Task
Status

You can have an unlimited number of active tasks.
When an hourly rate is set each active task counts towards your projects total billable hours

Active Task Notifications

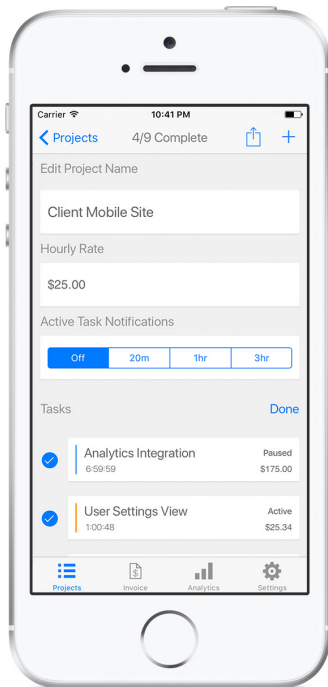

Optionally Schedule Active Task Reminders For Each Project.

The Project's Active Tasks Will Automatically Pause At The Interval You Choose.

Notifications Allow You To Update Your Status With A Tap.

Sharing Tasks

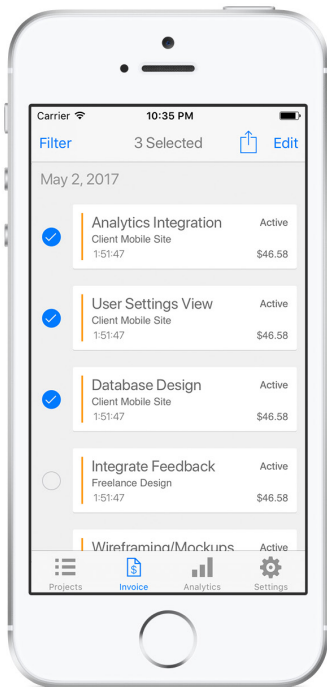

Airdrop

1. Tap [Edit](#)
2. Select the tasks you want to share
3. Tap 

To Share Your Entire Project Just Tap  Without Selecting Tasks

Simple Invoicing

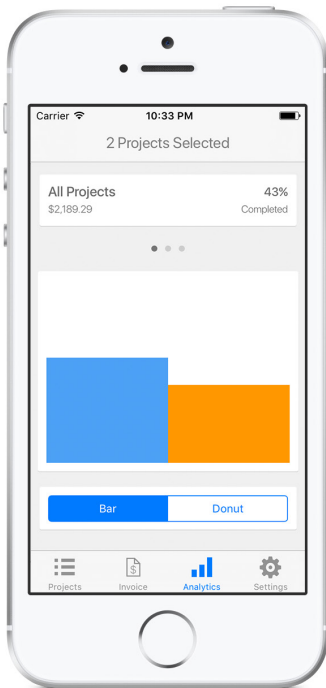

Use the Invoice Tab To Generate Invoices.
First, Tap [Edit](#) And Select The Items You Wan't To Bill For.
Finally Tap [Invoice](#) To Generate Invoice As HTML or CVS.

Analyzing Time Usage

Select Project To Analyze

By default you'll see all project data, just swipe to analyze each individual project

Interactively Display Time Utilization

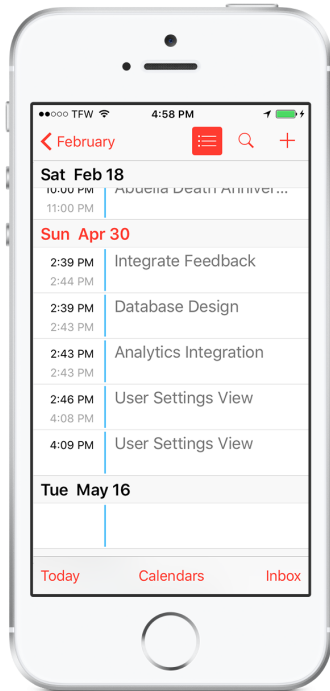

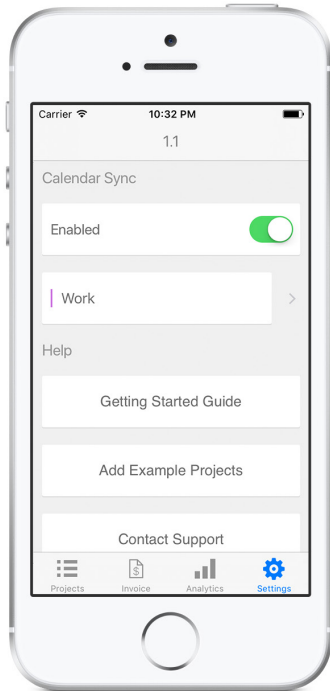

Real-Time Charts

Try toggling the Unstarted times or Paused times to see if you are wasting time that you could be billing for instead

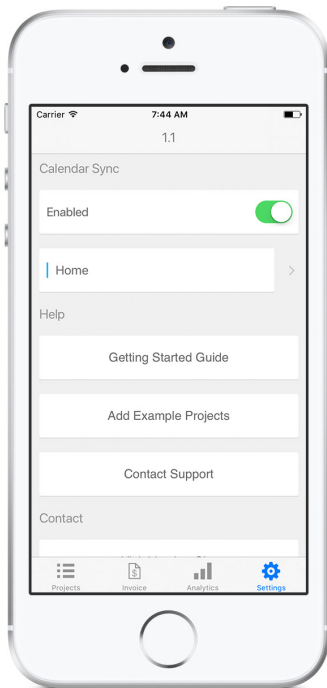

Take the guesswork out of creating project estimates.
Use historical data to help you determine how long a task should take!

Calendar Integration

Turning On Calendar Sync In Settings Will Sync Active Tasks
With The Calendar You Choose.
iCloud Calendars Will Sync Across All Your iCloud Enabled Devices.
