

Listabot

Track Tasks Across Multiple Projects.
Interactively Analyze Time Usage.
Generate Time Usage Reports.

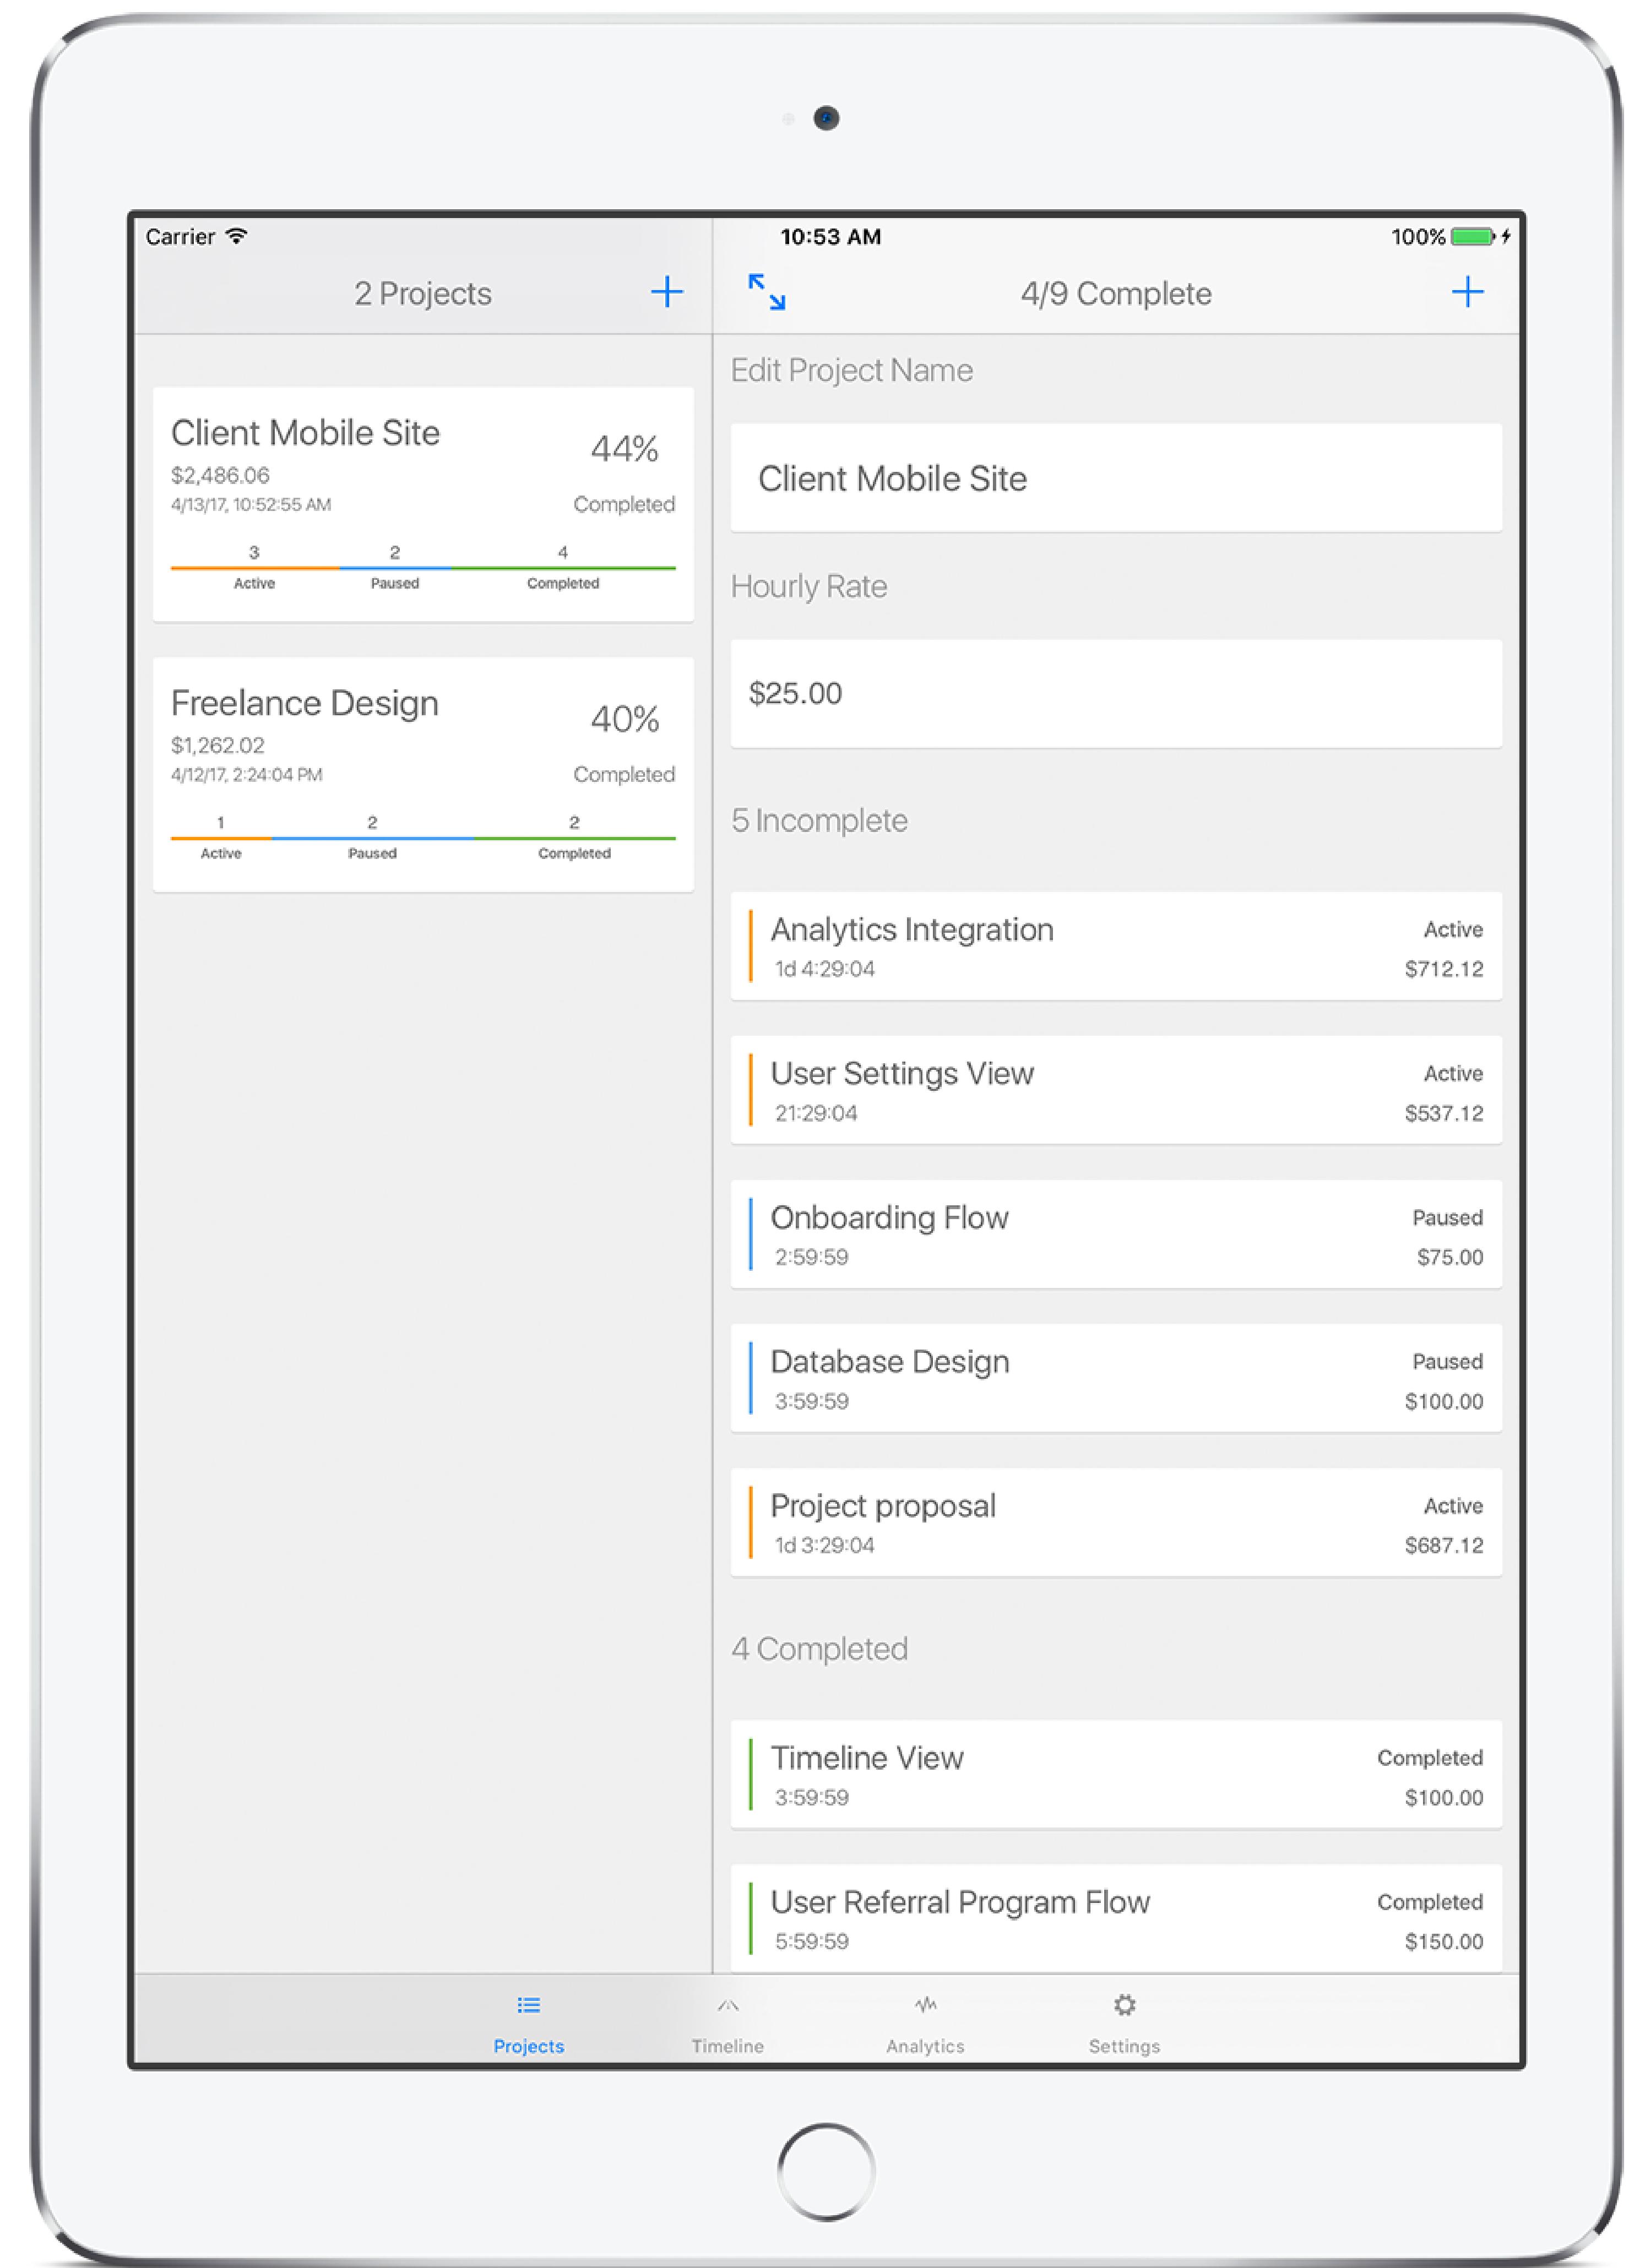

Setting Up Your Project

Status Timeline >

The timeline is the “pulse” of your project
It represents the statuses of each task

Project Overview

Shows the percentage of completed tasks & current billable hours (if an hourly rate is set)

Swipe right to remove a project,
or tap the project to modify settings or view task browser

< Add New Task

You can have an unlimited amount of tasks in any state

< Task Browser

Each task shows the color representing it's status & current billable hours (if an hourly rate is set)

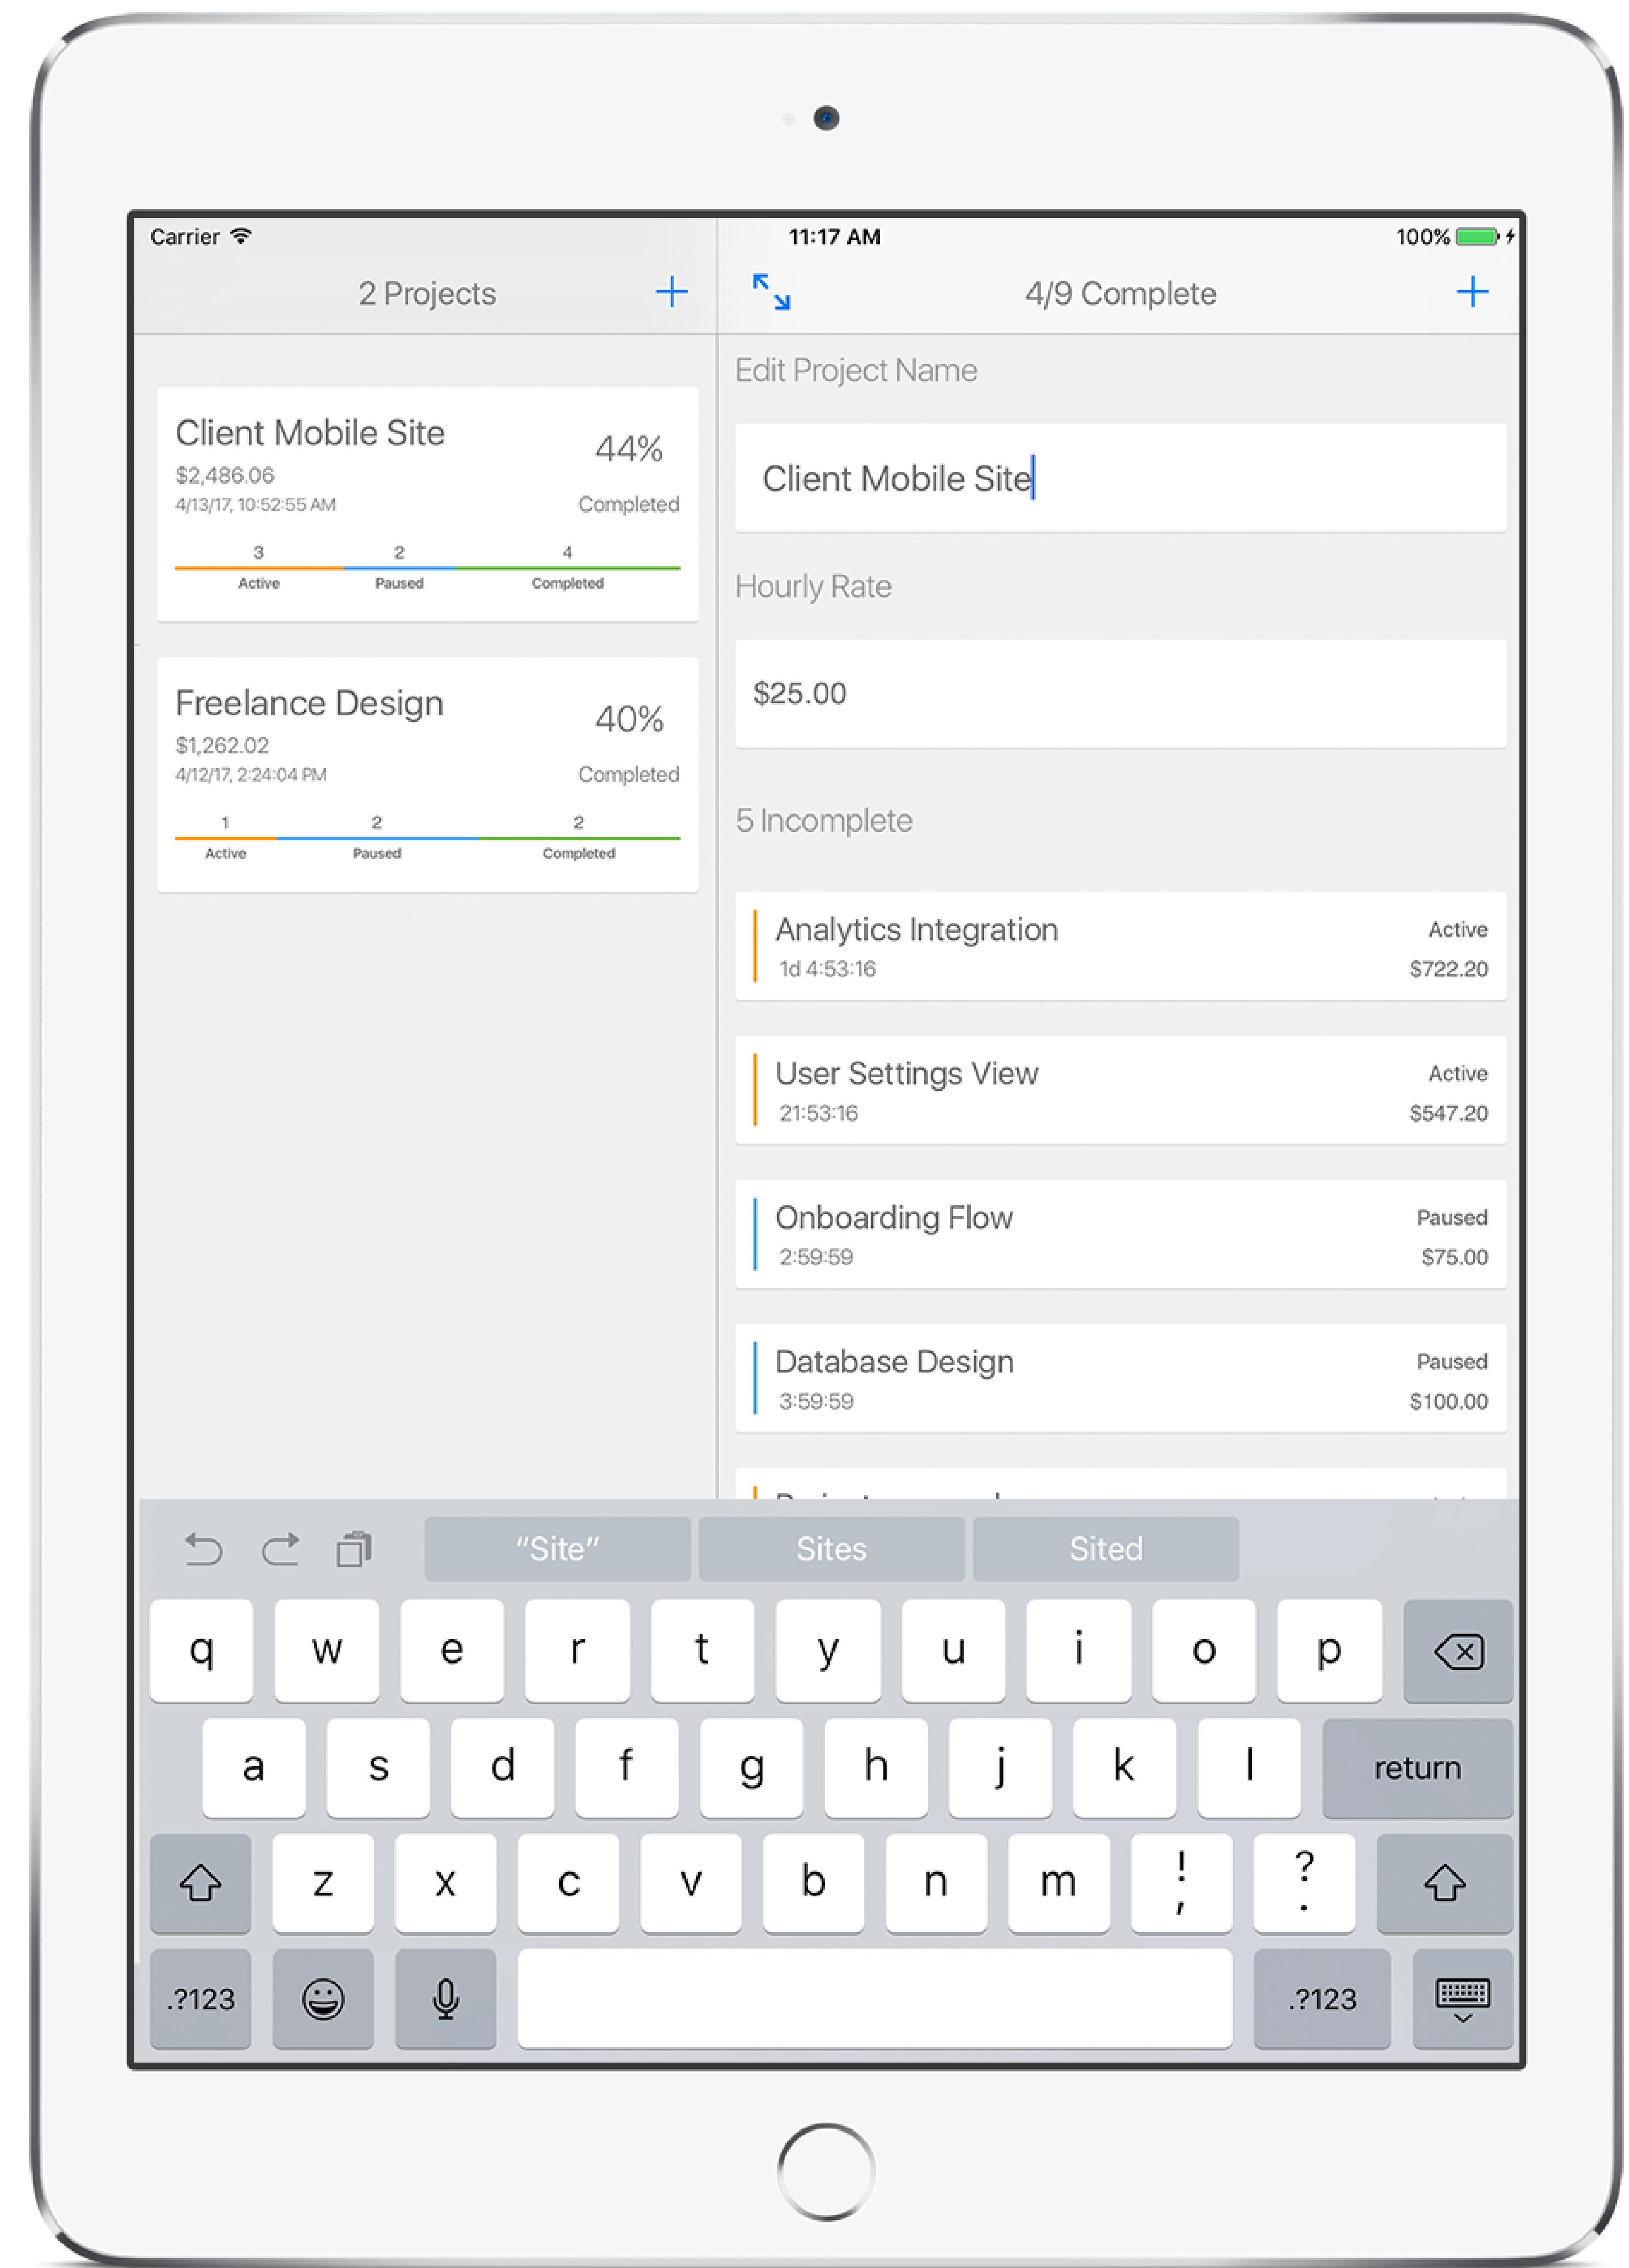

- Unstarted
- Active (Billable Hours)
- Paused
- Completed

Project Settings

Project Billable Hours

An hourly rate isn't required, but when you set a rate watch all your task hours update automatically.

You can try updating your hourly rate and make sure you are billing a fair amount for you and for your client

Add Task

Rename Project
Or Set Hourly Rate

Keep tasks simple with one discrete item to complete
This allows you to analyze how long each task takes

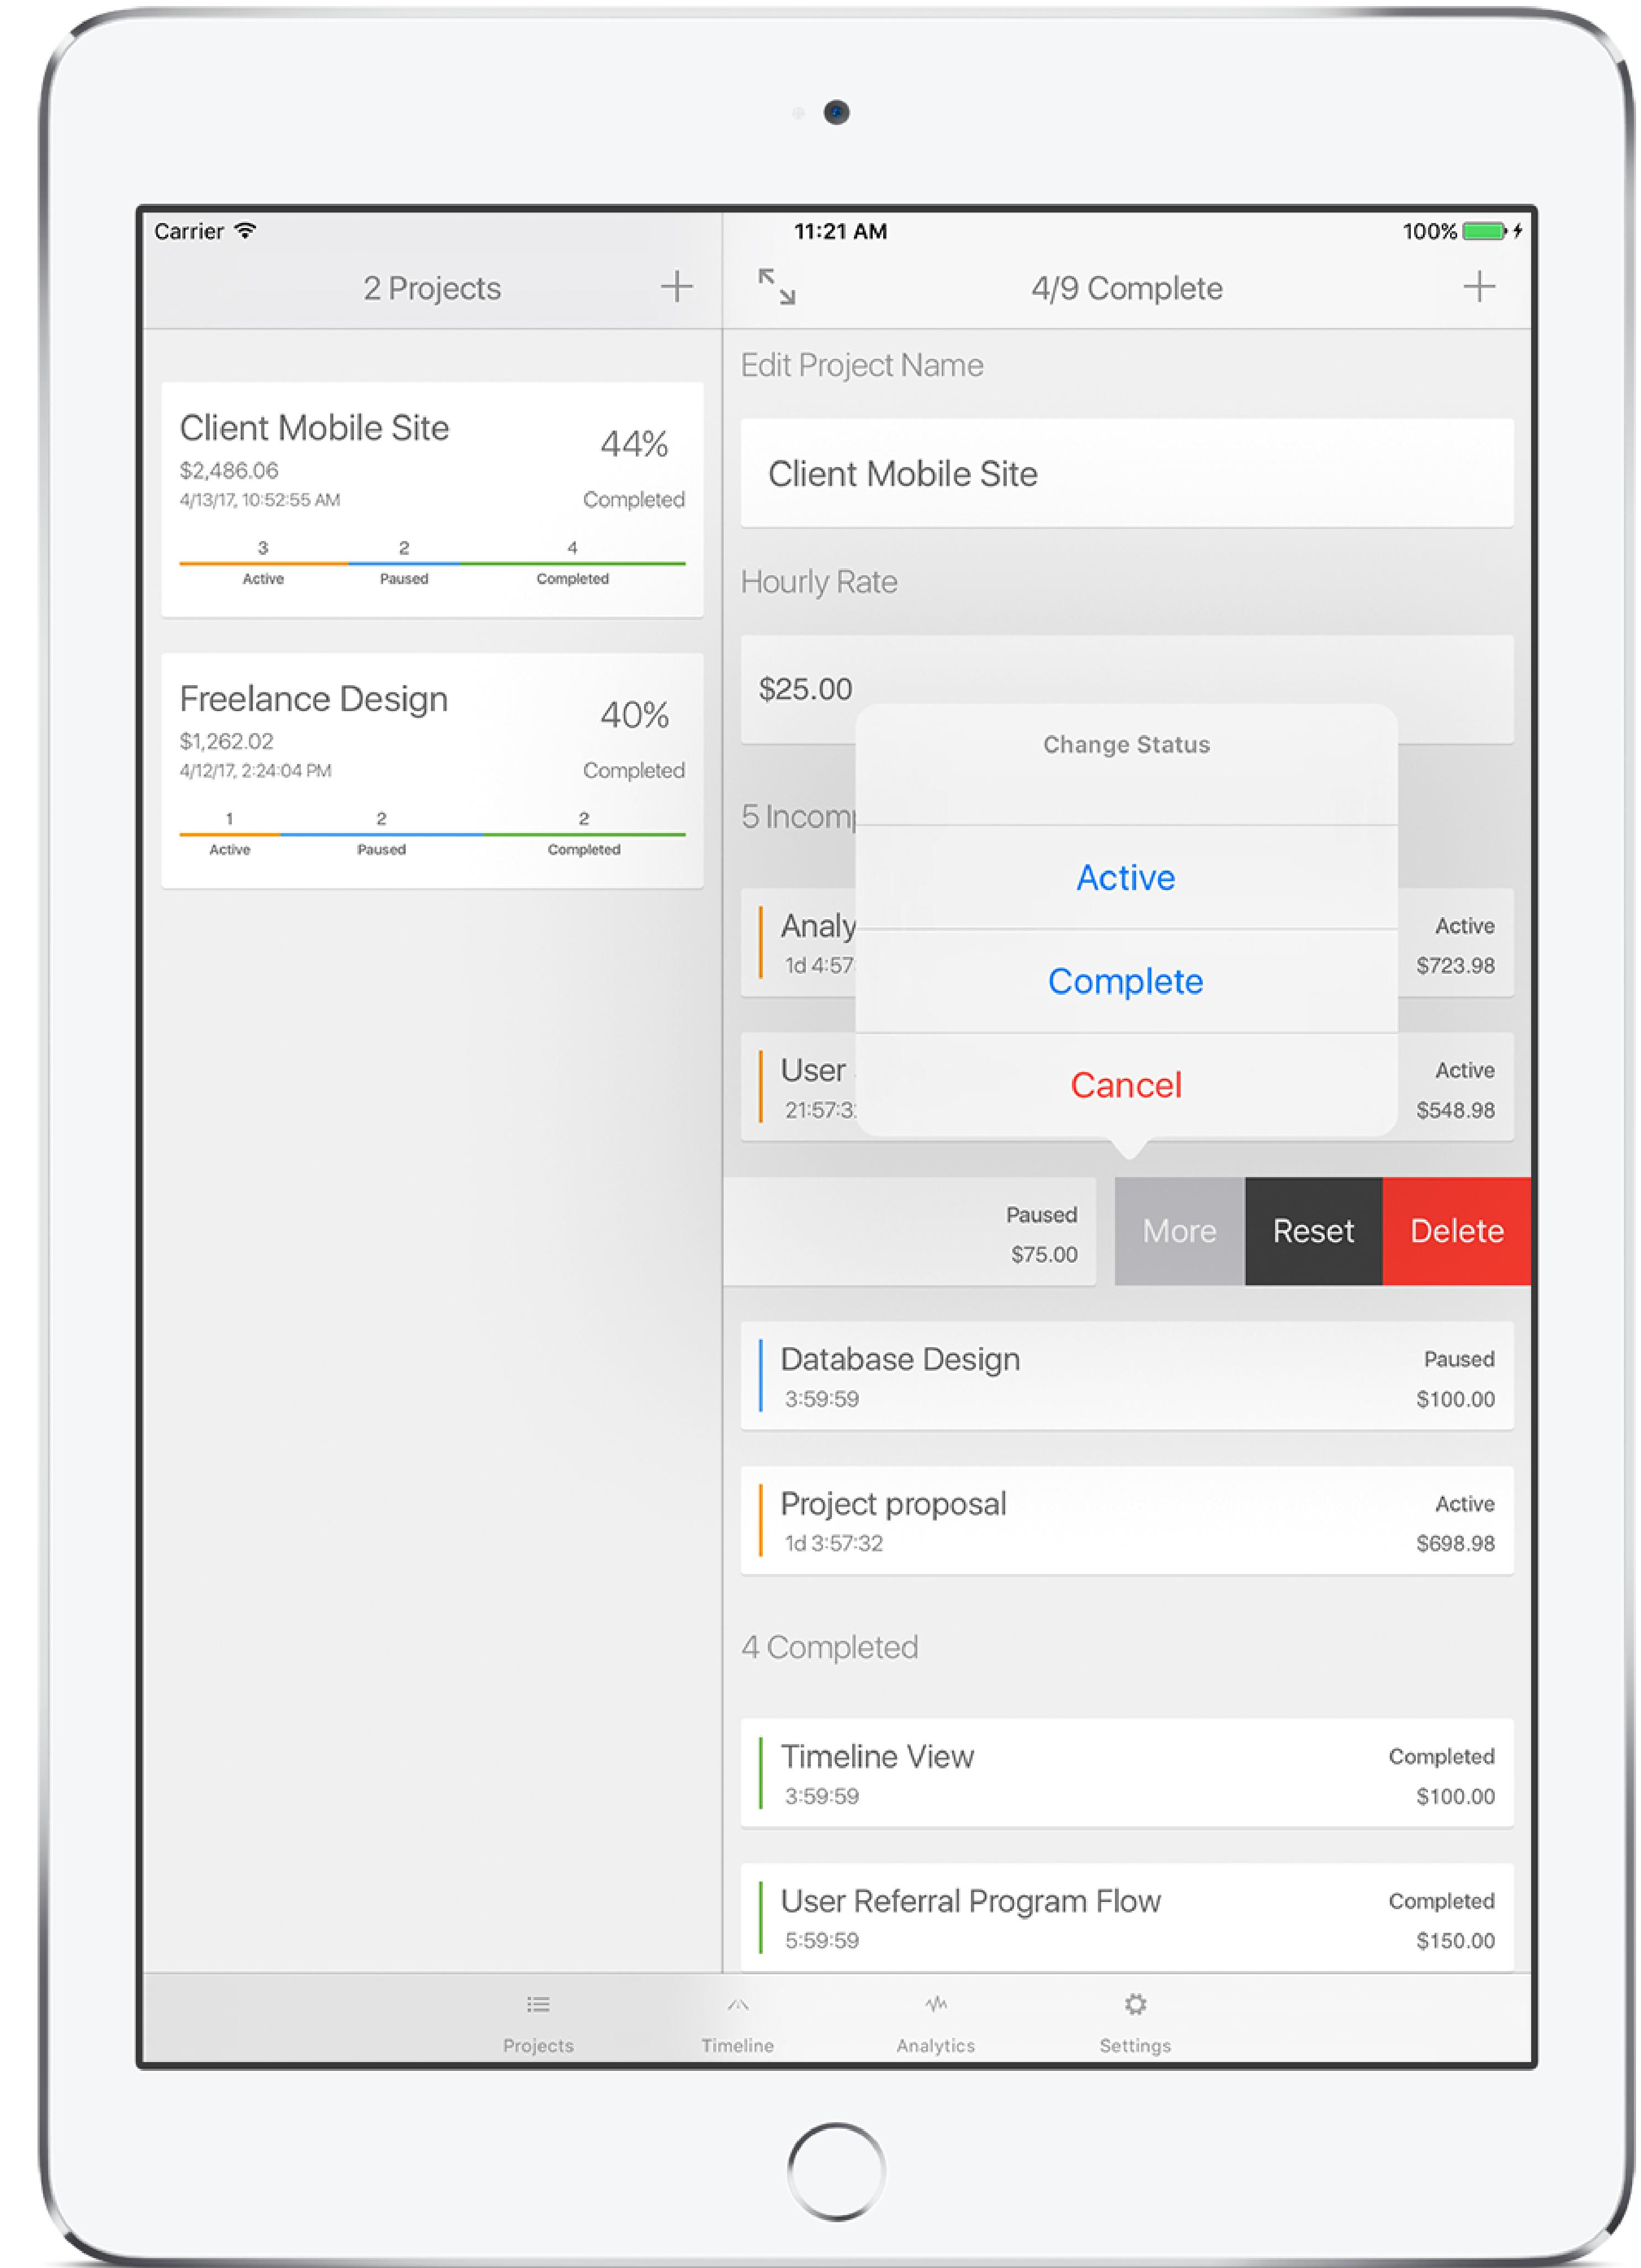

Managing Tasks

Task Overview

Update task status when you working on a tasks, when you take a break, or complete the task.

Swipe and choose reset to reset all the recorded time for a task

Swipe To Remove
Or Update A
Task's Status

Choose More To
Change Task Status

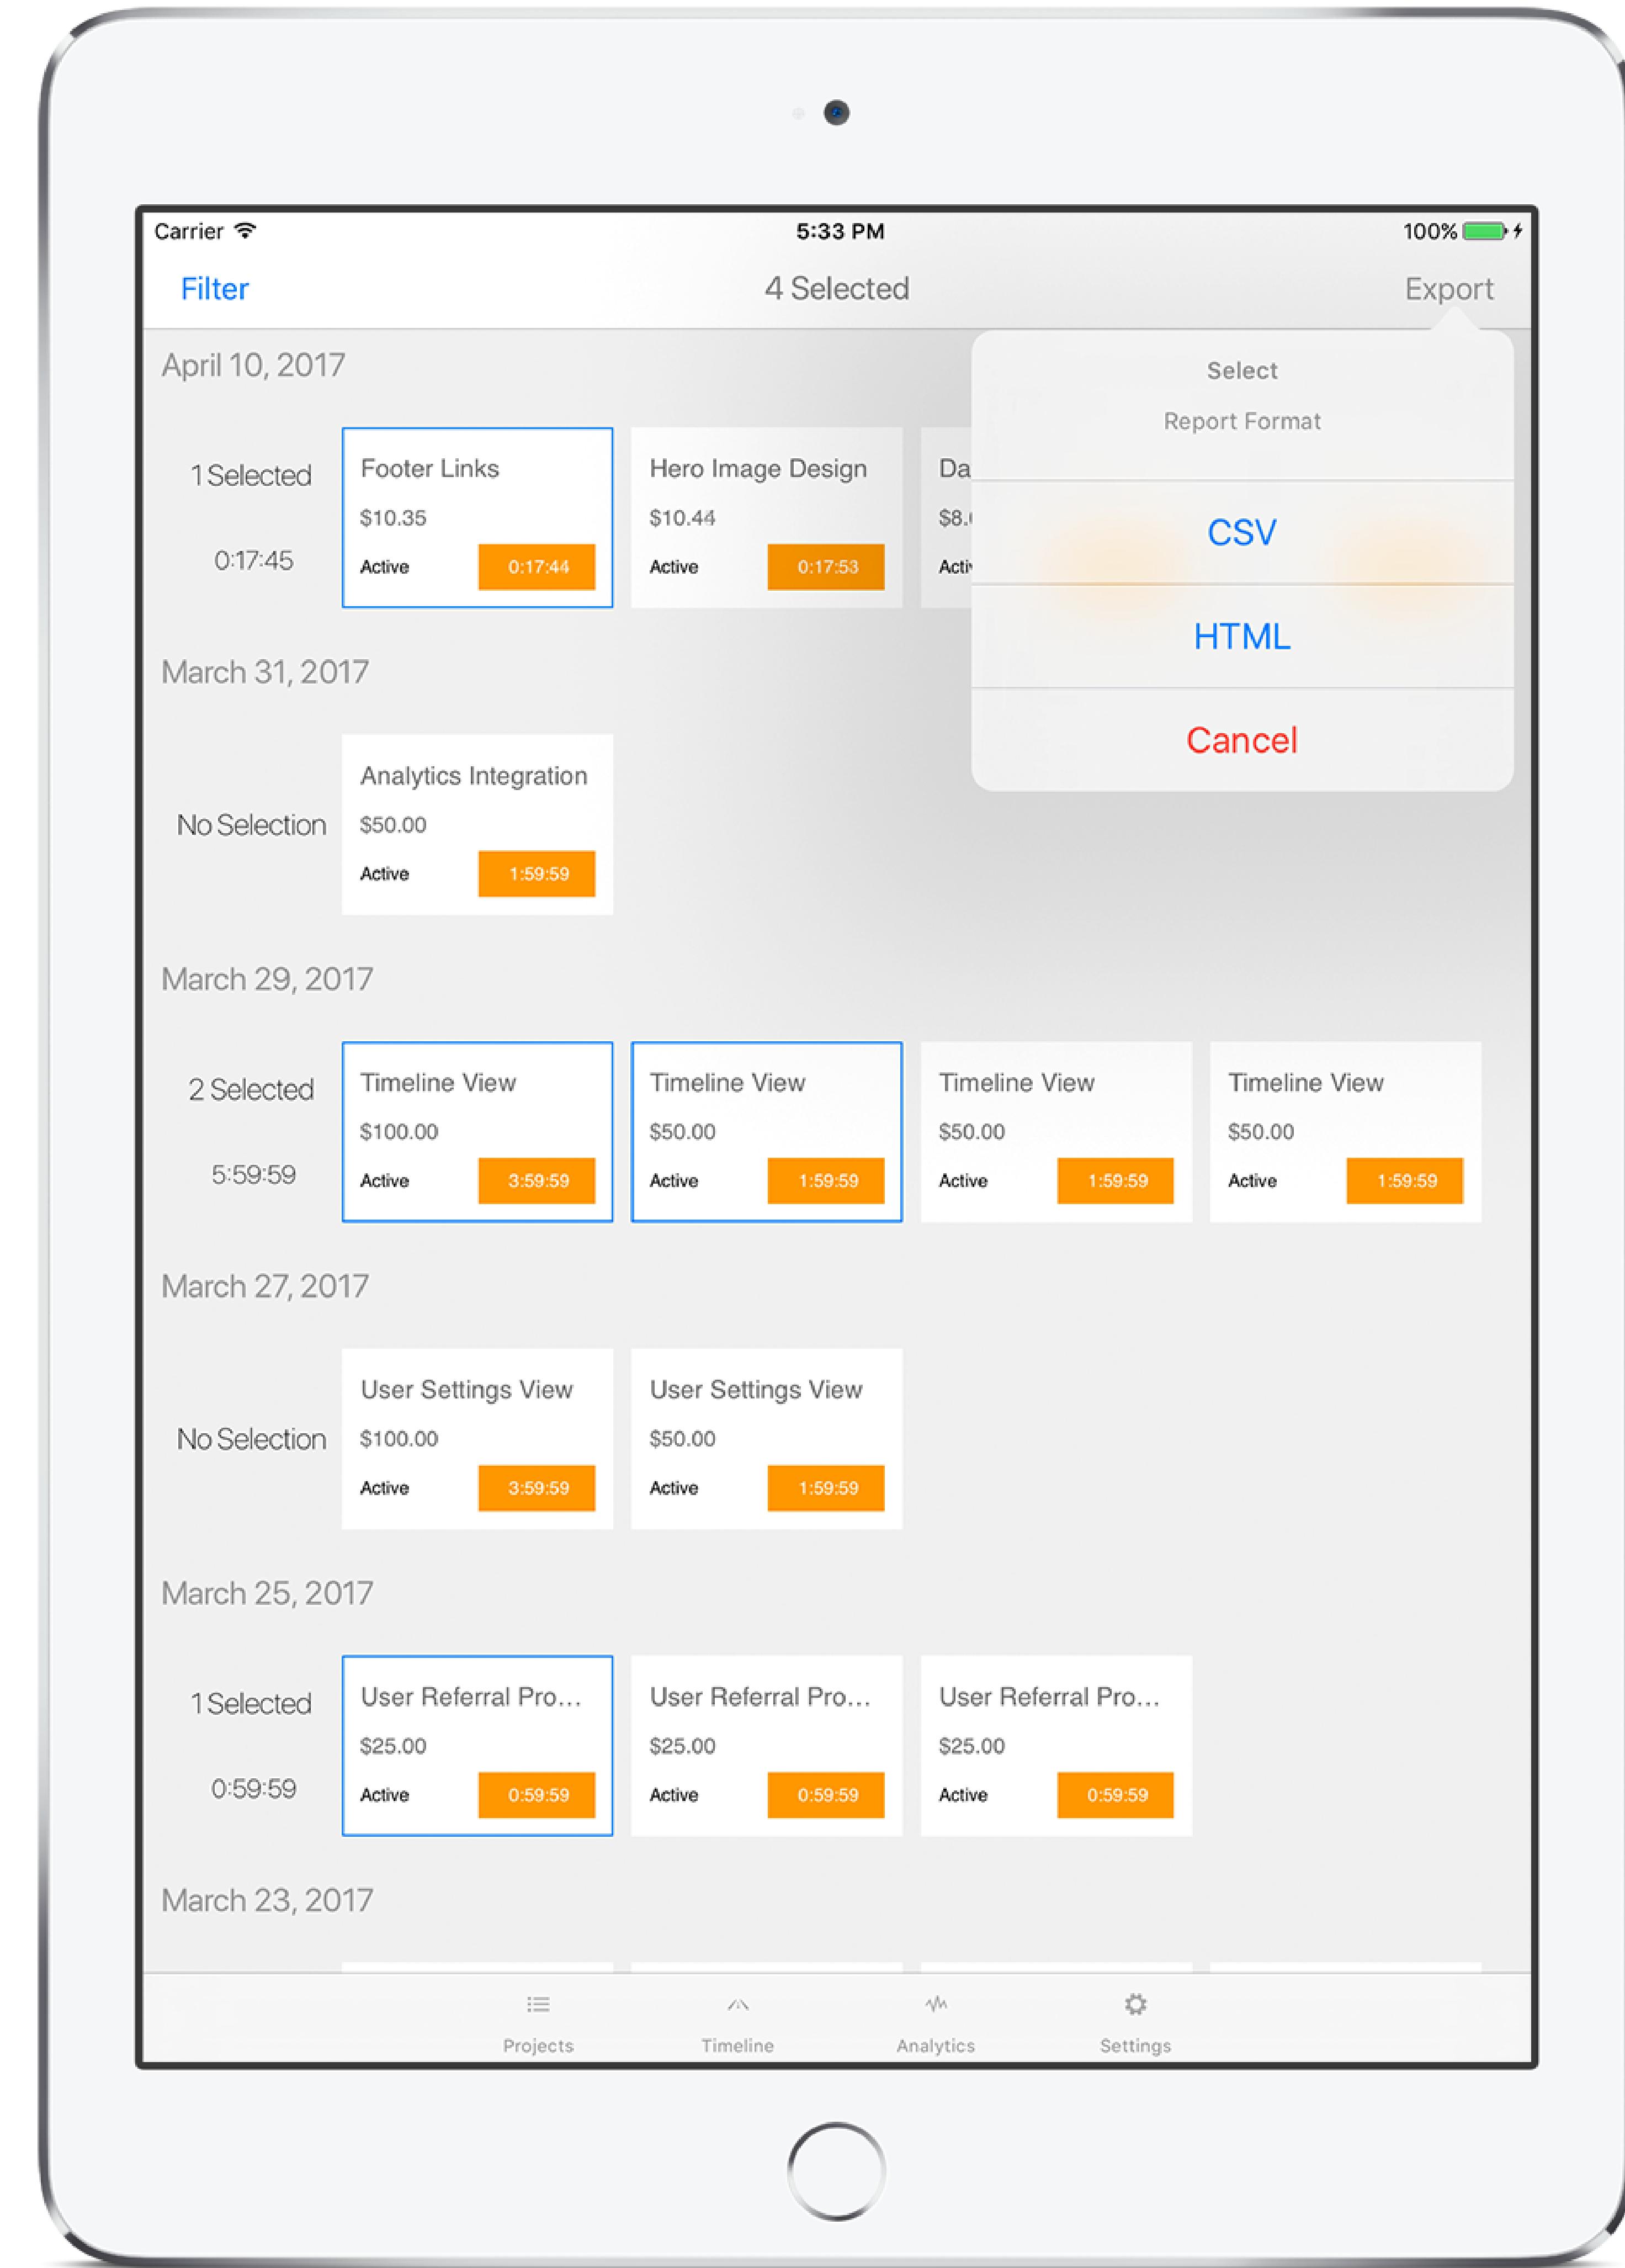

You can have an unlimited number of active tasks.
When an hourly rate is set each active task
counts towards your projects total billable hours

Showing Your Work

Only Billable
Hours Are Shown
By Default
Use Filter To
Show All Times

Choose A
Format For
Report
(HTML or CSV)

Select The Hours
To Include In
Your Report

Generate status reports from any of your projects.
You choose what to include, then just pick a format to export.
Hourly Rates Applied Automatically To Each **Active** Task.

Analyzing Time Usage

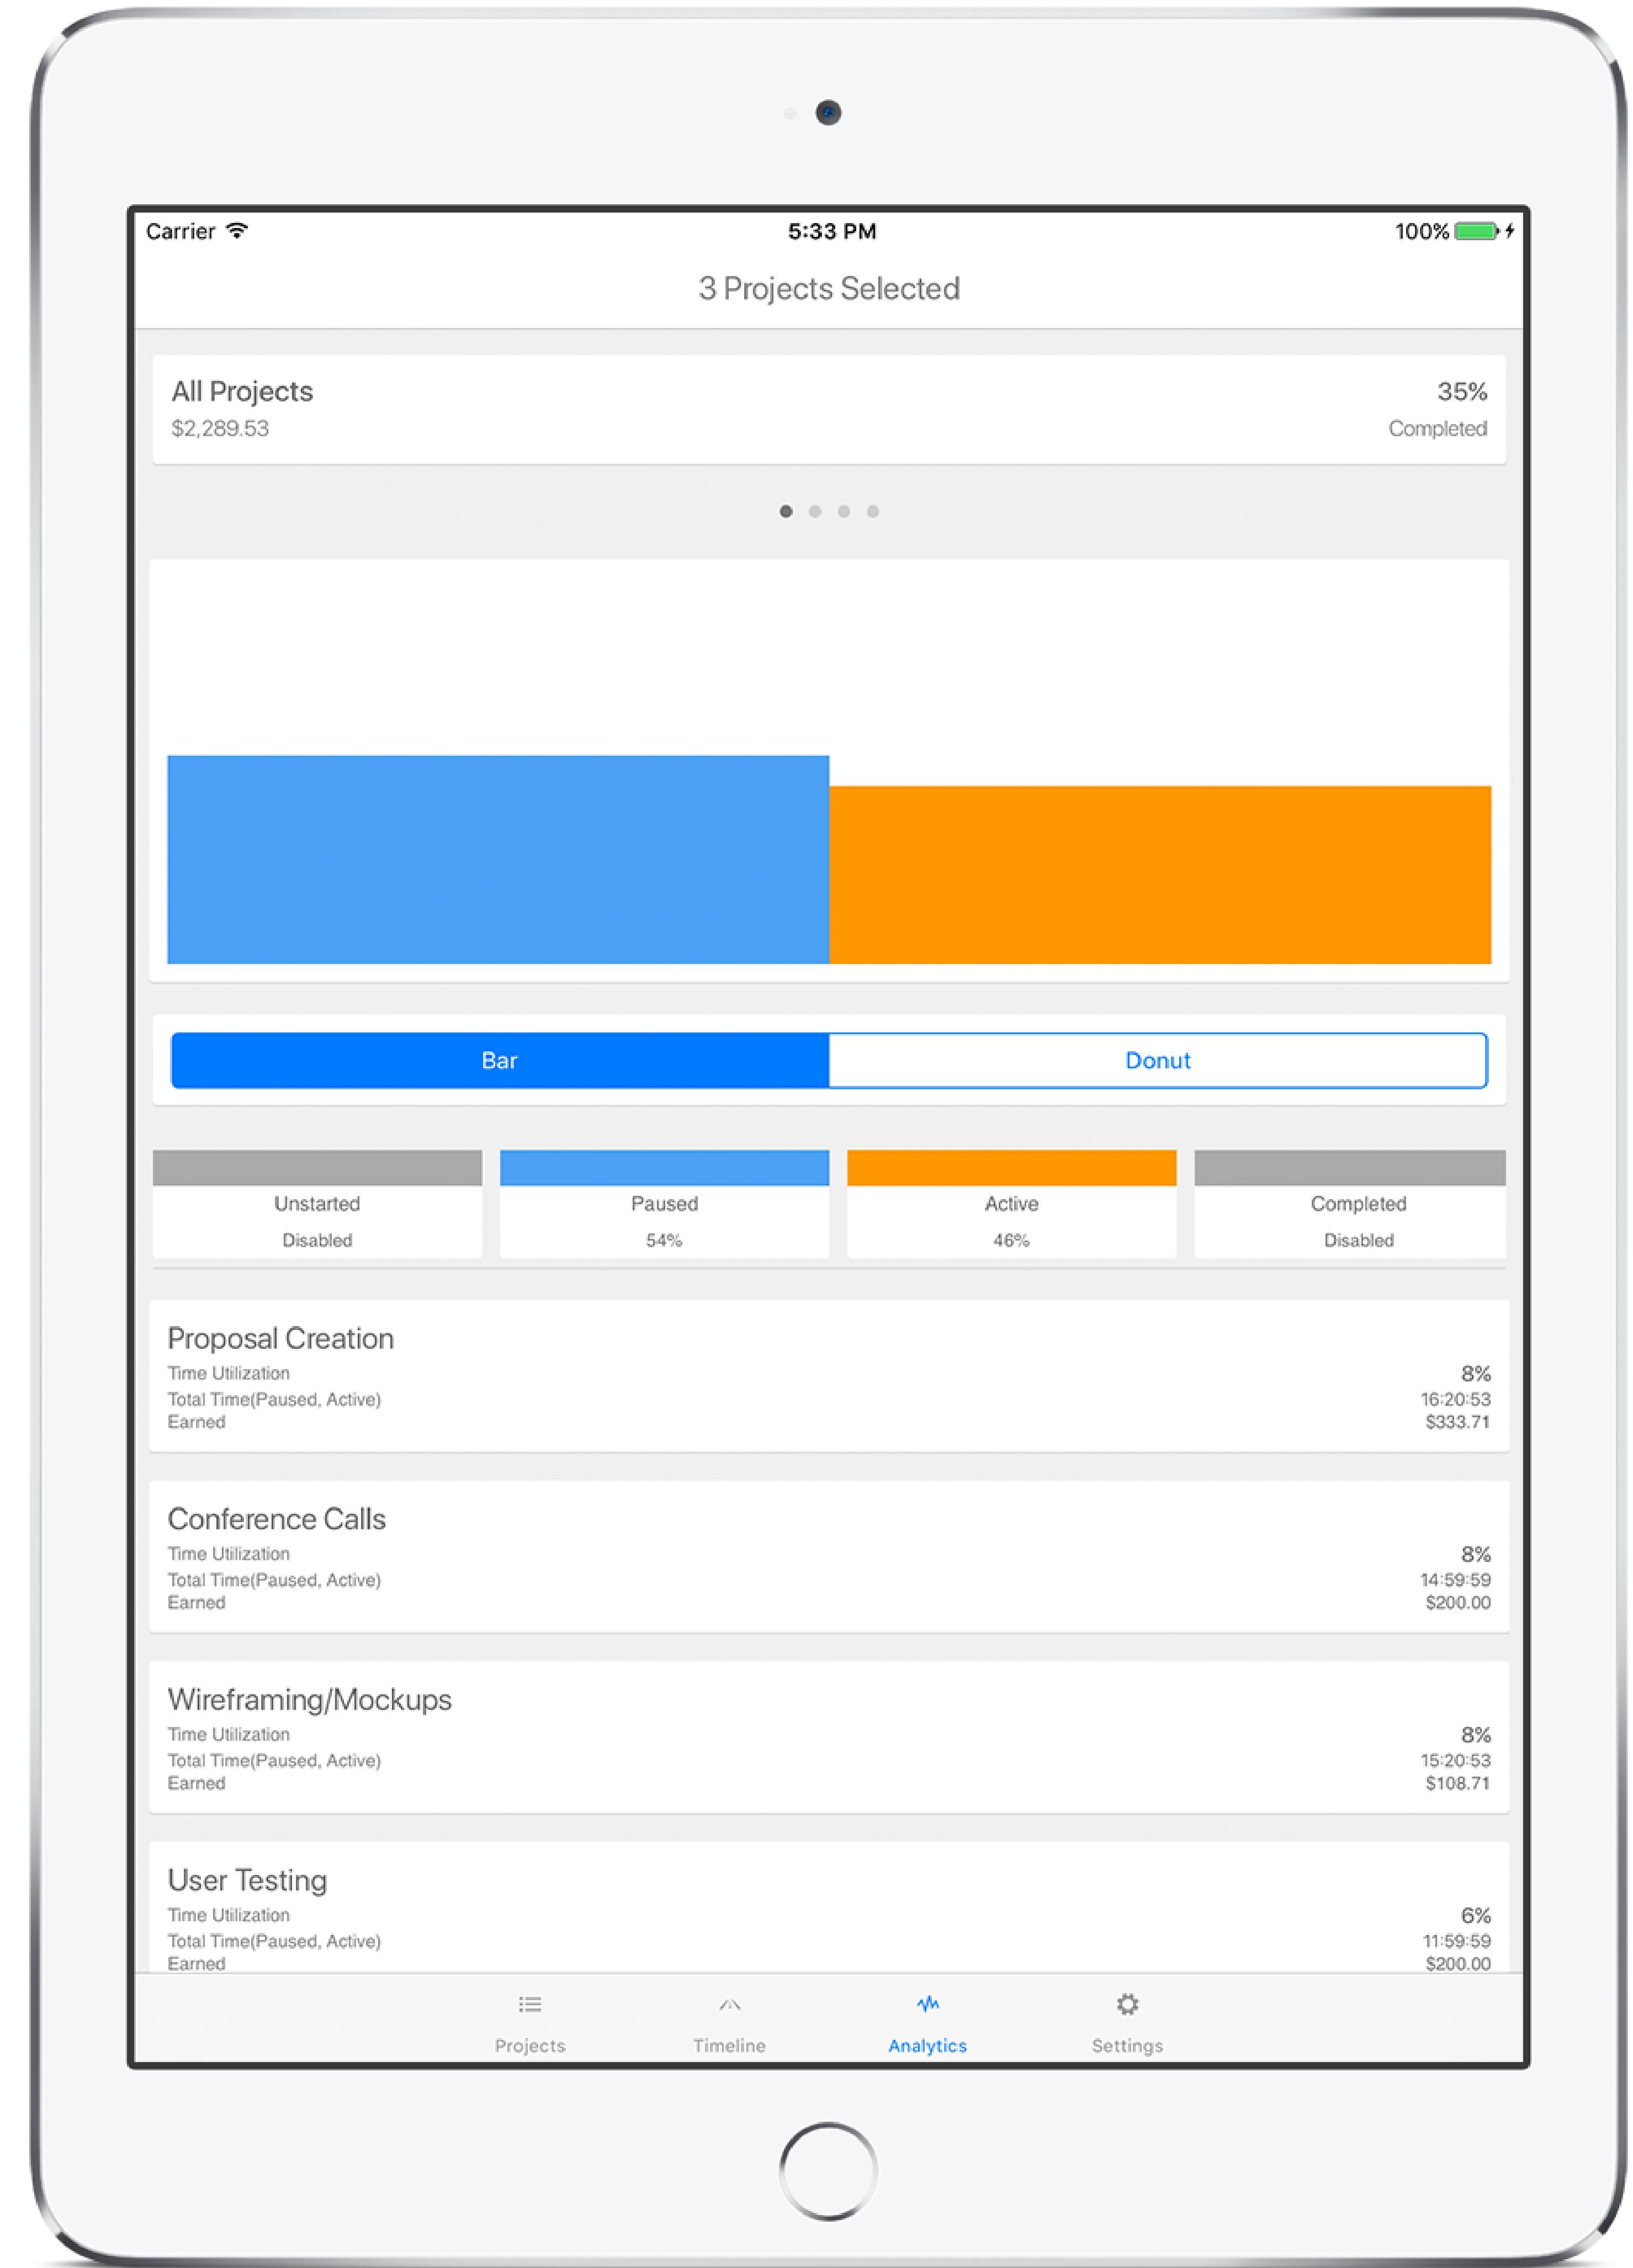

Select
Project To >
Analyze

Analytics Overview

By default only the (Active) billable hours and times a task are paused are shown.

You can choose any of the from any of the status update types to help see how time is being used.

Try toggling Unstarted to see determine how long it takes to actually start your tasks

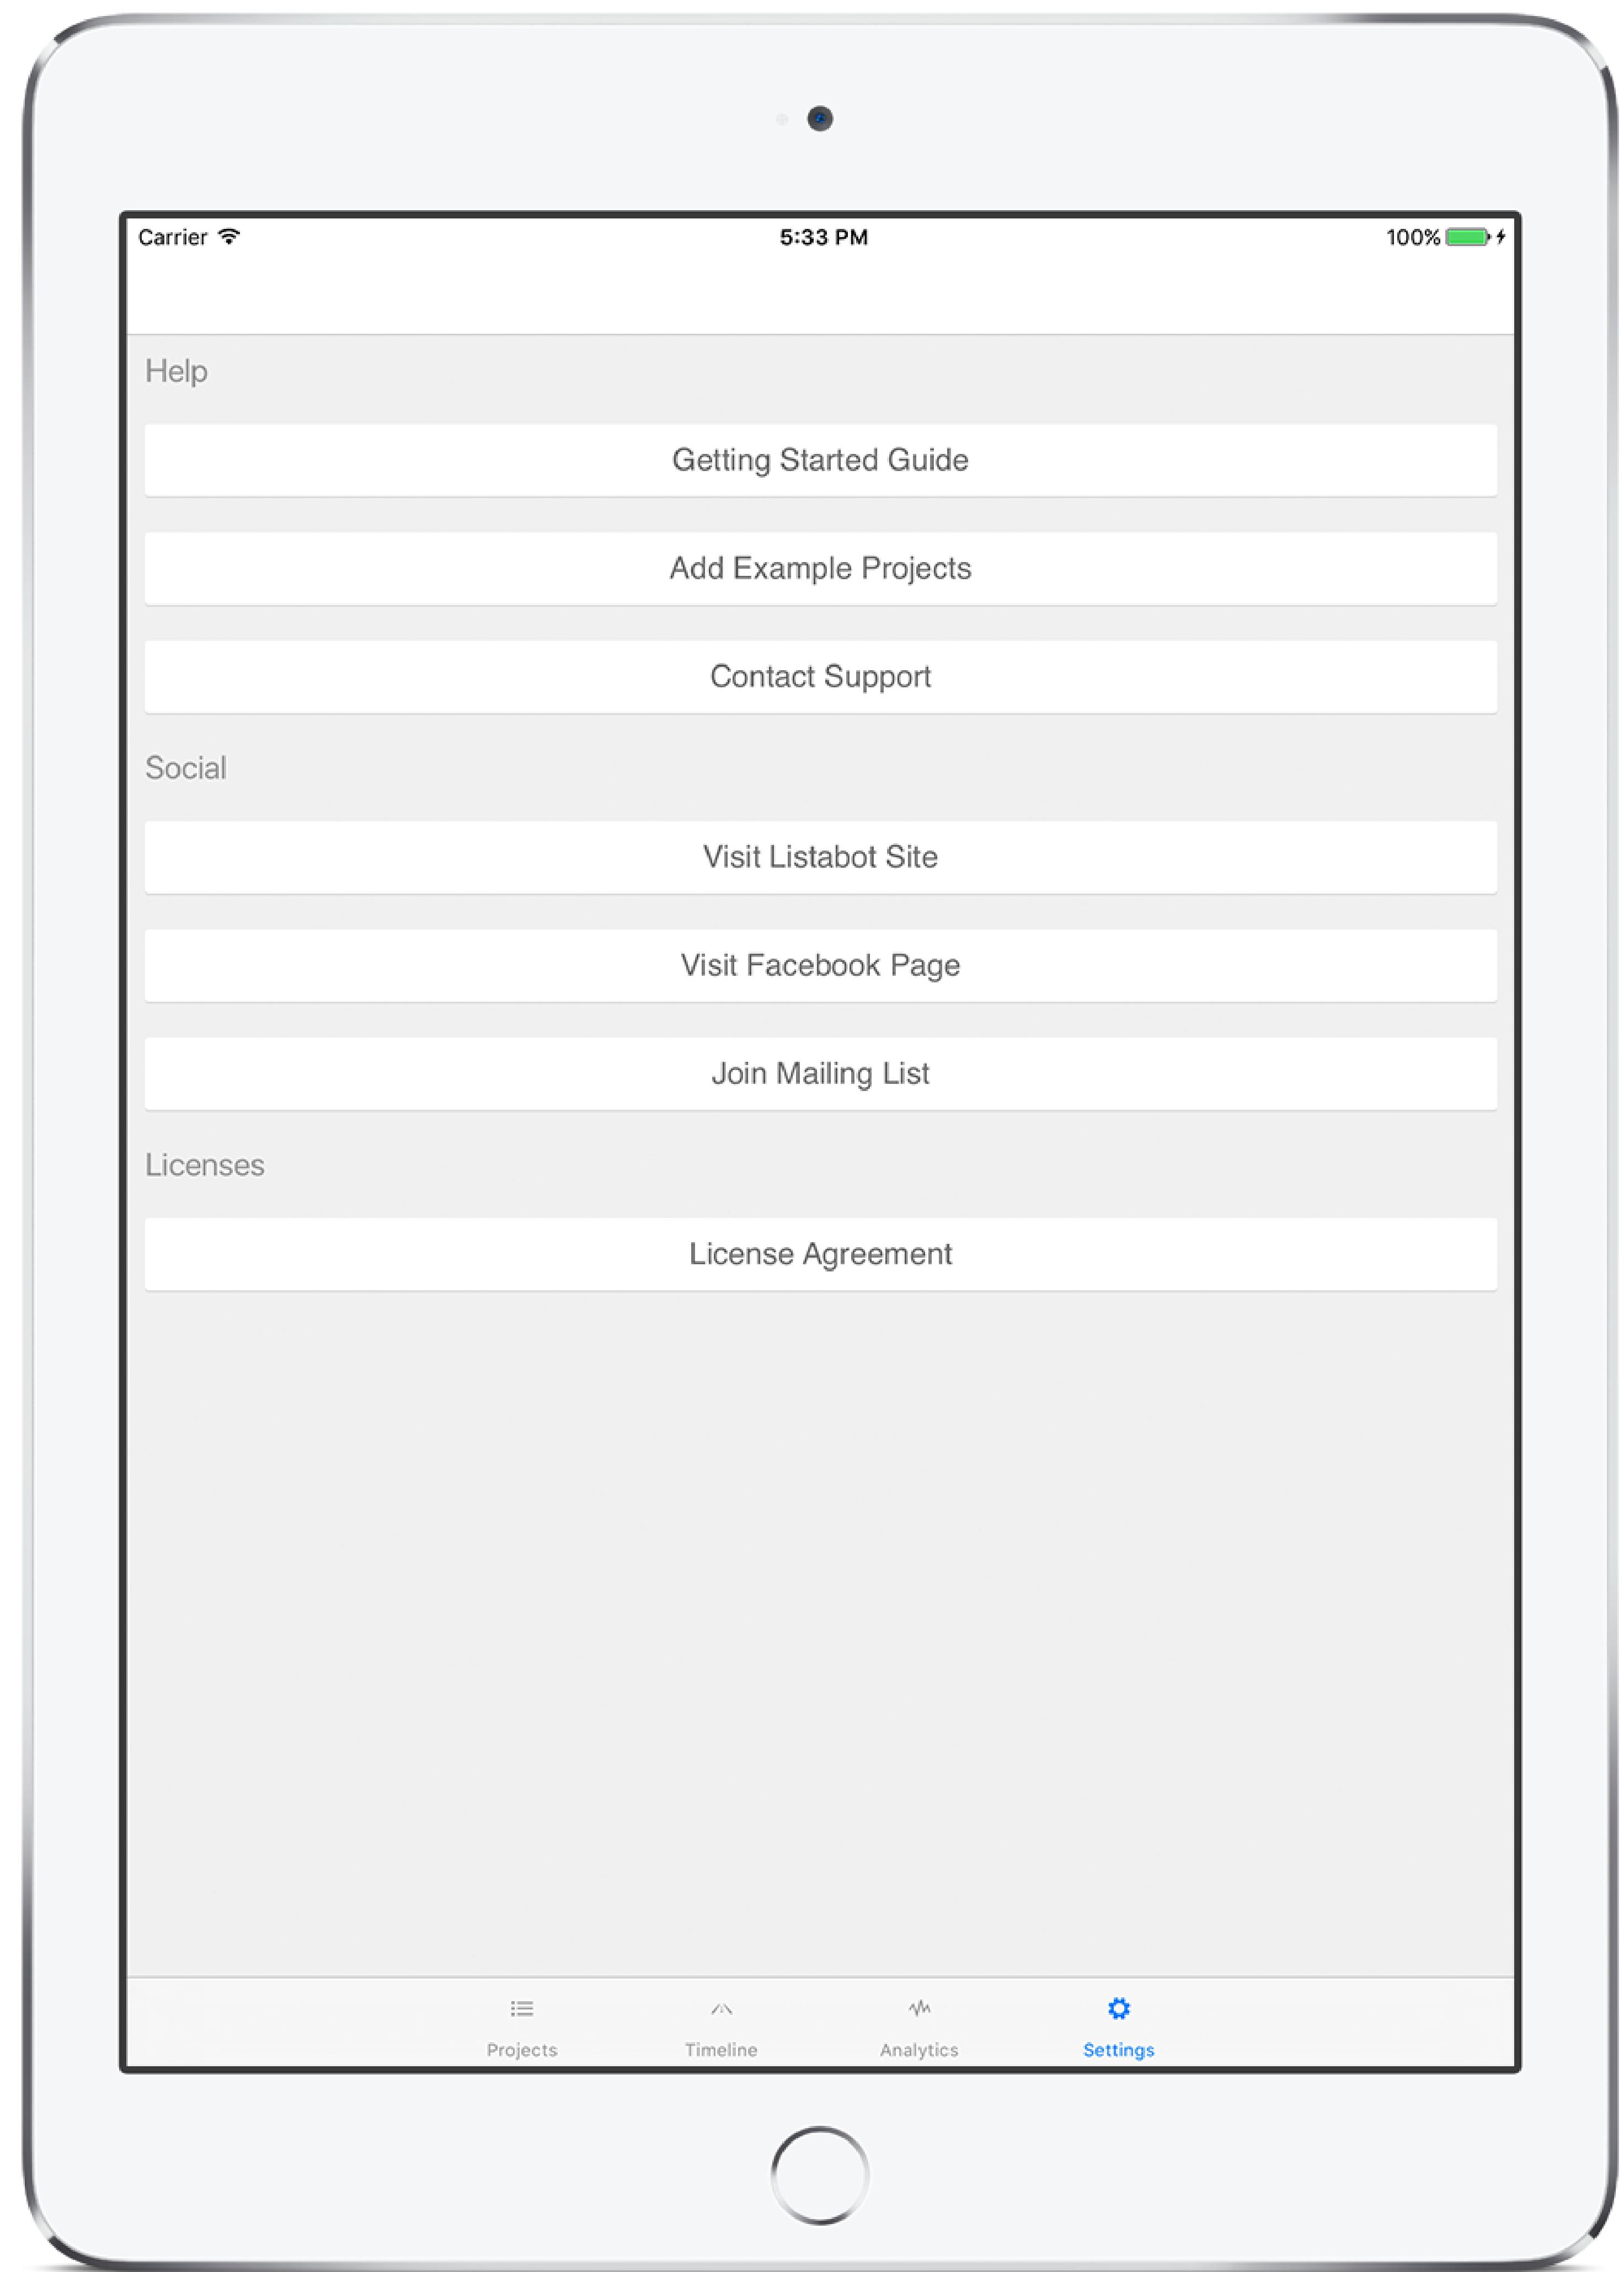

Real-Time Charts

Per-Task Break Down

Take the guesswork out of creating project estimates.
Use historical data to help you determine how long a task should take.
